Report Description

Based on the mandatory selections of Location (State, Region or National) and Baseline along with possible Handler Name, ID values, Units and Operating Status, this report will produce the unit-specific status of facilities in the GPRA Baseline Permit Universe and/or the GPRA Baseline Renewal Universe. If the Operating Status and/or Units criteria is selected, then only facilities that have atleast one unit matching that criteria will be displayed. The effective date will show the actual date of the OP205 event. If there is no OP205 event, then it will show the actual date of the OP200 event. Finally, if there is no OP200 event, then it will show the effective date of the op/leg status (Unit). Whichever date is shown will be indicated in parentheses.
